

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### PRESENTATION OF PETITIONS

CARSON CITY, NEVADA, January 23, 1919.

HON. R. A. MCKAY, *Chief Clerk, Senate, Carson City, Nevada:*

In order to expedite the handling of mail for the Senate Chamber, will you please have prepared a list of the members and attachés of the Senate, for the files of this office.

Respectfully,

A. B. KARNS, *Postmaster.*

RENO, NEVADA, January 22, 1919.

*To the Honorable Senate of Nevada, Carson City, Nevada.*

GENTLEMEN: The State Council of Defense of Nevada is in receipt of the following telegram:

WASHINGTON, D. C., January 20, 1919.

*State Council of Defense, Reno, Nevada.*

By direction of the Secretary of War, Chairman of the Council of National Defense, I request all State, Community, and Municipal Councils of Defense, comprising the one hundred eighty-four thousand units of the council of defense system, to do every thing possible to make successful the nation-wide arrangements for memorial services to be held simultaneously on February 9, 1919, the date of the proposed memorial service in Congress. It is asked that you place yourselves in contact with the Governor of your State, who has already received a telegram to this end from a nonpartisan committee of prominent citizens.

Because of the peculiarly nonpartisan character of the great council of defense system it is singularly fitting that the foregoing action should be taken. The honoring of Theodore Roosevelt is a matter that transcends party belief and personal prejudice. He lived greatly for America and that is enough to justify even those opposed to him in mourning his death. With iron courage he performed a major operation on the public morals of his country at a time when public ethics had become dulled, and with daring and unflinching dignity he measurably increased the prestige of America abroad. Of no American can it be more truthfully said that his heart was incarnadined with the flag. For these things alone all Americans who have lived in his time should hold themselves in his debt, and should turn aside on the 9th day of February to honor his passing from the national stage.

GROSVENOR B. CLARKSON,

*Director, Council of National Defense.*

I will merely add that this movement to pay tribute to a great American is

endorsed by the President and his official family in addition to all of the national patriotic societies. The whole is submitted to your honorable body for such consideration as you may give it.

Respectfully, NEVADA STATE COUNCIL OF DEFENSE,  
H. A. LEMMON, *Director*.

Senator Harrington moved that a committee of three to confer with a like committee from the Assembly be appointed to arrange suitable exercises in joint session for the 9th day of February, 1919.

Carried.

The President appointed Senators Harrington, Chapin, and Campbell.

The Secretary was instructed to notify the Assembly of the action taken by the Senate.

UNITED WAR VETERANS,  
KALISPELL, MONTANA, January 15, 1919.

*The President of the Senate, Carson City, Nevada.*

DEAR SIR: We enclose copies of laws which we desire to have brought to the attention of your honorable body and trust it will act favorably with them.

These proposed laws are substantially the laws of quite a number of States, but apply in some instances only to Civil War Veterans and in others to Spanish War Veterans also, but we ask that they be made applicable to World War Veterans.

Thanking you for your support, we are

Yours very truly,

### MOTIONS, RESOLUTIONS AND NOTICES

By Senator Cowles:

*To the Honorable Senators of the Senate of the State of Nevada.*

Your petitioners being the Good Government League of Nevada, a nonpolitical organization formed for the purpose of suggesting needed legislation, and to compel by publicity the enforcement of laws now existing, do present for your consideration the following:

The Truckee River is the source of the water supply of fully 70 per cent of

the citizens of Reno, and their water supply has been continuously polluted by the discharge of refuse, acids, and deleterious substances into the stream by the Crown and Willamette Paper Mill Company, a corporation, operating within the borders of California.

That recognizing the injury being done those living in Reno and their inability to protect themselves, and that the constant pollution of the stream endangered the health of the citizens of that city, the Legislature of the State of Nevada in its Twenty-eighth Session, did by Act duly passed and approved on the 8th day of March, 1917, direct the then Attorney-General of the State, Geo. B. Thatcher, to commence such action as might be required to prevent or restrain the pollution of the streams of the State. To provide funds for the expense attendant upon such proposed litigation the Legislature did also appropriate the sum of ten thousand dollars, the said Act being entitled "An Act to protect the people of the State of Nevada from the pollution of its public streams, making an appropriation therefor, and controlling the administration thereof," approved March 8, 1917.

Your petitioners further state that pursuant to the Act the presiding officer of the Senate appointed Hon. W. S. Huskey as a commissioner and the Speaker of the House appointed Hon. Lute White in the same capacity, and those two gentlemen together with the Governor and the said Geo. B. Thatcher constituted the commission to control the administration of the Act. Your petitioners are informed and state as a fact, that the Hon. Lute White shortly after his appointment left the State of Nevada and the place made vacant by his removal was never filled. Your petitioners are further informed that there has never been a meeting of the commission held since early in the year of 1917, and so far as we are able to ascertain the entire matter has been under the complete control and sole administration of the said Geo. B. Thatcher, as the Attorney-General of the State of Nevada. Your petitioners also state upon information that more than one-third of the appropriation has been expended, and such expenditures have been made by the said Thatcher upon his own responsibility and without direction from the commission, save in the instance of employing certain experts to test the waters of the Truckee River to ascertain whether the debris and deleterious matter discharged into the stream was injurious to human life, but in all other respects the moneys appropriated have been withdrawn from the treasury of the State of Nevada under the direction and as ordered by the said Thatcher.

Your petitioners state that apparently no effort has been made by the said Thatcher to restrain the offending company and prevent the pollution of the Truckee River as he was directed by said Act to do, and that the waters of that stream flow through the city of Reno in the same foul condition as when said Act was passed and approved on the eighth day of March, nineteen hundred and seventeen. Wherefore your petitioners pray that a joint commission be appointed by the respective Senate and Assembly of the State of Nevada to investigate the cause of the failure of the said Geo. B. Thatcher to carry out the terms of the Act, and to investigate the expenditures of money to ascertain how much has been expended, for what purpose and to whom, and that your committee be empowered to call as witness such persons as they may require, and that they may be empowered to have the books of any department brought before them for inspection, and be invested with such other powers as will make the commission effective and its investigation complete.

Done in compliance with instructions from the Good Government League of Nevada.

W. E. LOWTHER, *Secretary of Legislative Committee.*

RENO, NEVADA, January 23, 1919.

Senator Cowles moved that a committee of one be appointed to act with a like committee from the House in regard to the communication from the Good Government League of Nevada, concerning the pollution of the water supply of Reno.

### PRESENTATION OF PETITIONS

*To the Members of the Senate and Assembly of the State of Nevada:*

We, the undersigned, resident electors of the county of Clark, hereby respectfully protest against the passage of Senate Bill No. 8, being an Act to amend the Act creating a State Board of Health, approved March 27, 1911.

Signed by MRS. BERTHA TURNER and 103 other names.

R. A. MCKAY, Esq., *Secretary of the Senate, Carson City, Nevada.*

DEAR MR. MCKAY: In accordance with a custom designed for the convenience of the Legislature, I wired on January 15, 1919, to the Underwood Typewriter Company, 611 J Street, Sacramento, Cal., asking them to renew the arrangement and to send four No. 5 ten-inch-carriage and four No. 3 twelve-inch-carriage Underwood typewriters at a flat rate of \$10 each to be used during the legislative session and returned ten days after, the State to pay express both ways.

On January 27 I wired for two additional No. 5 ten-inch-carriage Underwoods, on the request of the Chief Clerk of the Assembly, and on February 3 I ordered one No. 5 ten-inch and one No. 3 twelve-inch at request of the Sergeant-at-Arms of the Senate. Machines received were as follows: January 17—No. 3: 119248, 93900, 109344, 128084; No. 5: 746392, 551140, 660255, 660276. January 28—No. 5: 692755, 692760. February 3—No. 3: 110247; No. 5: 6067835; making five wide-carriage and seven ten-inch-carriage Underwoods in all.

No. 660276 ten-inch-carriage was exchanged at the Governors' office for Remington No. 10-RZ-66637, but this is only a temporary arrangement.

These machines were carefully unpacked and were inspected by me on receipt and found to be in acceptable condition, considering them as rent machines.

In a letter of January 16 the Underwood manager says they have no repair agents and "if difficulty arises in connection with any of these machines that you are unable to overcome, we would suggest that you wire us and we will ship you a machine in exchange for the one that is causing trouble."

Now that the Legislature is organized and has a Legislative Fund, I turn the matter over to you, trusting that you will confer with the Chief Clerk of the Assembly and arrange for the payment of the rentals and the express charges. The rental on the first eight machines is \$10 for the session and ten days more. That on the rest is \$5 each per month. I note you advise that No. 5—551140 and No. 3—119248 are in bad order. I am sending a copy of this letter to Mr. R. M. Rowland, Manager, Underwood Typewriter Co., Sacramento.

HOMER J. MOONEY,

Bills enclosed.

*Secretary Board of Capitol Commissioners.*

Senator Harrington moved that the communication be referred to the Committee on Claims, State Affairs, Supplies and Expenditures.

## REPORTS OF SELECT COMMITTEES

## IN RE REPORT OF JOINT COMMITTEE ON TRUCKEE RIVER POLLUTION SUITS

We, your joint committee in the Senate and Assembly on the investigation of the Truckee River pollution suits, respectfully report as follows:

We have made an investigation of the suit commenced by the then Attorney-General, Geo. B. Thatcher, against the Crown Willamette Paper Company for the pollution of the Truckee River at Floriston and of the expenditures made by him in said action. We called upon Mr. Thatcher and requested a written report concerning the suit, which was given to us and which we attach hereto and make a part of this report. Upon the receipt of Mr. Thatcher's report we investigated the statements therein made and also made a thorough examination of the expenditures and the bills therefor. We confirm the report of Mr. Thatcher upon the suit and his statements with reference to said suit and the expenditures therein, and adopt his report and attach the same as a part hereof.

Respectfully yours,

R. H. COWLES, *Senator.*

H. E. STEWART, *Member of Assembly.*

*Joint Committee on Investigation of Truckee River Pollution Suits.*

HON. RICHARD COWLES and HON. H. E. STEWART, *Members of the Legislative Committee, Carson City, Nevada.*

GENTLEMEN: Pursuant to your request for a written report of the Truckee River pollution suit, I beg leave to report as follows: An Act of the Legisla-

ture, approved March 8, 1917, made it the duty of the Attorney-General, with the consent of the Governor, to commence such actions or suits as might be necessary to restrain the pollution of public streams running into the State, or running in or through the State. The Act in question also appropriated the sum of \$10,000 for carrying out the purposes of the Act as a whole, not more than \$1,000 of which could be expended for attorneys' fees. Pursuant to the authority granted, the Attorney-General commenced an investigation of the pollution of the Truckee River by what is commonly called the Floriston Paper Company, the true name of which is the Crown Willamette Paper Company, shortly after the adjournment of the Legislature. In the latter part of May or the early part of June, 1917, Mr. Charles Gilman Hyde, Sanitary and Hydraulic Engineer connected with the University of California, was employed as an expert for the State for the purpose of making the investigation of the pollution of the stream and the conditions of the stream, for the purpose of preparing such exhibits, data, and evidence as might be necessary in the prosecution of an action restraining such pollution. Mr. Hyde was employed at a meeting of the board, consisting of the Governor, Attorney-General, Mr. Huskey, then State Senator, and Mr. Lute White, and Mr. Hyde's compensation was fixed at \$50 per day and expenses for all days actually employed in the field, by the unanimous vote of the board, consisting of Mr. Huskey, Mr. White, the Attorney-General, and the Governor, with the understanding that there would be no charge for laboratory work, investigations, or for the preparation of plats, diagrams, exhibits, data and material for the trial. Mr. Hyde commenced his investigations in the early part of July, 1917, and continued them until the early spring of 1918. Immediately Mr. Hyde commenced his work, he succeeded in obtaining the active cooperation of the Board of Health of the State of California in investigating the pollution of the Truckee River. The State Board of Health, in cooperation with Mr. Hyde, made many experiments, prepared numerous exhibits and a large amount of data and material which is available and may be used by the State and its attorneys in the prosecution of the action. In the neighborhood of one hundred exhibits, maps, plats, and charts have been prepared and are ready for use upon the trial of the case.

Upon the recommendation of Mr. Hyde, Charles Atwood Koifoid, Professor of Zoology of the University of California, and Consulting Biologist of the Spring Valley Water Company of San Francisco, was employed to make an examination and report of the biological conditions of the Truckee River above and below the paper mill, with a view of determining the effect of the wastes upon the quality of the water in the stream and its effect upon the waters for potable uses, and the condition of the river with reference to the effect of the waters upon the life and production of fish. Mr. Koifoid's compensation was fixed at \$250 and expenses.

It is the understanding that both Mr. Hyde and Mr. Koifoid will be available as witnesses on behalf of the State in the action commenced and being prosecuted to restrain the pollution of the Truckee River by the Crown Willamette Paper Company.

The amount of work done in these investigations can best be appreciated by an examination of the reports of our experts, Mr. Hyde and Mr. Koifoid, and the reports of Mr. C. G. Gillespie and Mr. Frank Bachmann of the State Board of Health of California, which are transmitted herewith for your information. The report of the State Board of Health, you will observe, sustains our contention, and also gives us much valuable additional data and detail available for the prosecution of the action. The report of the State Board of Health of California is, of course, a public document and is open to inspection in California by any one interested. It is suggested, however, in the public interest, that the reports of Mr. Hyde and Mr. Koifoid be not made public, as I do not deem it advisable to give to the opposing parties to the controversy the information therein contained in advance of actual trial.

Preliminary reports of Mr. Hyde and Mr. Koifoid were given to the Attorney-General in January, 1918, it having been impossible to complete the investigations and experiments prior thereto. Based upon these reports, a complaint was prepared by me, a copy of which is transmitted herewith. I appeared in the Supreme Court of the United States on the first Monday in March, 1918, and made a motion for leave to file an original bill of complaint on behalf of the State of Nevada against the Crown Willamette Paper Company. The Supreme

Court of the United States is the court of original jurisdiction in controversies in which a State is a party plaintiff against a citizen or corporation of another State. Leave to file the complaint was granted by the Supreme Court of the United States on March 11, 1918, and the Supreme Court of the United States issued its subpoena (this is the equivalent of a summons in a state court), which was served upon the defendant. The return day of the subpoena, under the rules of the court, was fixed for the October term, 1918 (the first Monday in October), at which time the defendant was required to appear.

Shortly before the first Monday in October the defendant asked for a stipulation extending its time to answer. This stipulation was granted upon the condition that it did not file a demurrer; the time was further extended to March 15, 1919. No time was lost by this, for the reason that the defendant could have demurred, the demurrer would have to have been argued and decided by the Court, and the company would have been allowed additional time to answer. Upon the filing of this answer the cause will be ready for trial. When ready for trial the Supreme Court of the United States will appoint a Master-in-Chancery for the purpose of taking testimony. Witnesses will be heard and examined; the testimony will then be transcribed and printed, and submitted to the Supreme Court, and after argument and briefs the case will be submitted to the Supreme Court of the United States for its decision. The case is of great importance. It requires and has required careful preparation. This preparation has been given the case. That the case will be contested vigorously by the other side, there can be no doubt, for the defendant has an investment in the neighborhood of a million dollars, which will be completely lost if the State of Nevada prevails in this contention, unless the paper company can arrive at a satisfactory and complete remedy and prevention of pollution of the stream. The work has been done with the care that the importance of the case demands, and the State of Nevada has thoroughly prepared to present its side of the controversy when the trial of the cause is reached.

With reference to the expenditures, the sum of \$3,330.82 has been expended, \$200 of which only was for attorney's fees. I attach hereto a statement showing the items of expenditure. The warrants were drawn by the State Controller only after the presentation of itemized bills which were passed by the Board of Examiners and audited by the State Controller. All of these bills were authorized as required by law. You are familiar with and have made an examination of the itemized bills.

By obtaining cooperation of the State Board of Health of the State of California, a very material saving was made to the State. The State Board of Health of California, whatever may be said of other departments of the State of California, realized its duty in the matter and gave us every assistance, and the experimental work done by them would have cost us, in material, supplies and services, at least \$1,500.

I would suggest that the character of the work done is best judged by those familiar with this character of law-suits and the judgment of experts in this line would be the best test, and that probably a report, after hearing, by the Judiciary Committee, would be advisable—the Judiciary Committee consisting of lawyers familiar with this character of work.

The case is now pending in the Supreme Court of the United States. It will be pushed to a conclusion as speedily as the character of the case and the rules and practices of the Supreme Court of the United States will allow. There has been no settlement or compromise of the case, and the State has not waived any rights nor has it agreed to accept any solution of the pollution difficulty. I am informed that the Crown Willamette Company has built a new reservoir and has installed new pumps and equipment for the purpose of completely taking out of the river the sulphide waste liquids. This, however, is not the result of any agreement, or stipulation, made on behalf of the State, but is purely a voluntary act on the part of the Crown Willamette Paper Company, who in all probability realize that they must, of their own initiative, arrive at some satisfactory solution of the situation, and they probably have before them the advance report of the State Board of Health of the State of California, to which I have heretofore referred. The solution of the situation is up to the Crown Willamette Paper Company, and whether the building and installation

of the new reservoir for the care of the sulphide liquid is an adequate solution, is one that must ultimately be determined by the Court.

Yours very truly,

## MESSAGES FROM THE ASSEMBLY

*To the Honorable the Senate:*

I have the honor to transmit herewith enrolled copy of Assembly Bill No. 37, which was vetoed by the Governor on the 27th ultimo, together with the Governor's veto message.

Upon consideration the Assembly passed the bill over the Governor's veto by the following vote: Yeas, 25; nays, 10; absent, 2.

J. H. CAUSTEN,

*Chief Clerk of the Assembly.*

*To the Honorable the Assembly:*

I am depositing with you, without my approval, Assembly Bill No. 37, entitled "An Act to amend section 1 of an Act entitled 'An Act to amend sections 1, 2, 3, and 9 of an Act entitled "An Act to restrict and license glove contests between man and man, and to repeal all other Acts in conflict therewith," approved January 29, 1897,' approved March 23, 1913."

This bill proposes to legalize twenty-five-round prize-fights, our present law establishing a limit of ten rounds in such contests.

It is significant that the statutes of other States in the Union limit the number of rounds which may be fought in any exhibiting of boxing or in any prize-fight to a fewer number of rounds than that proposed in this bill and in most cases to a fewer number of rounds than are now permitted under our existing law. In doing this, I take it, after a somewhat extended personal observation of this particular sport, that public opinion has registered its opposition; not to boxing or glove contests, as such, but to the existing debased and wholly discredited sportmanship represented in the commercialized aspects of the professional pugilism which this measure invites to Nevada. From one of the finest and most beneficial of all sports, boxing, under professional auspices, has degenerated into as mean, as unsportsmanlike, and as dubious an enterprise as could be found parading under the cloak of true sportmanship in any of the four corners of the wide world.

Whether this bill be designed to invite prize-fighting in general or whether it be designed to invite a particular prize-fight, I am not prepared to say. I am convinced, however, that the sentiment expressed by the people of Nevada through its Legislature, shortly after the last important event of this character held here, is a sentiment which exists today even under the altered domestic social conditions prevailing, and that Nevadans, in the vast majority, prefer to prosper under a type of laws which do not invite from the outside world contemptuous reference to our progressive ideals and which do not invite, even for short periods, the troops of undesirables who constitute the professional and habitual following of the prize-ring. In short, I believe that we are coming to entertain a degree of civic pride in this State which will be in no wise accurately reflected by measures of this character.

Respectfully submitted,

EMMET D. BOYLE, *Governor.*

Senator Harrington moved that Assembly Bill No. 37 be made a special order for Monday, March 10, at 2:30 p. m.

*To the Honorable the Senate:*

I have the honor herewith to return to your honorable body Senate Joint Resolution No. 7, which passed the Assembly March 3, 1919, by the following vote: Yeas, 30; nays, none; absent, 2; not voting, 5.

Also, to present Assembly Bill No. 76, which passed the Assembly March 3, 1919, by the following vote: Yeas, 34; nays, none; absent, 2; not voting, 1.

### MESSAGES FROM THE ASSEMBLY

*To the Honorable the Senate:*

I have the honor herewith to present for the consideration of your honorable body Assembly Bill No. 219, which passed the Assembly as amended by the following vote: Yeas, 28; nays, 2; absent, 6; not voting, 1. The following amendments to the bill were adopted by the Assembly:

(1) Amend section 11 of the bill, including the caption of said section, so as to read as follows: *General Authority and Powers Granted—May Appropriate Public Waters—May Cause Same To Be Withdrawn from Appropriation—Right of Eminent Domain May Be Exercised—Procedure for Determining Value of Unperfected Permits.* Sec. 11. The board is hereby authorized to adopt a seal and to perform such further acts, not specifically mentioned herein, as may be necessary or proper to accomplish the purposes of this Act and said board is empowered to adopt and enforce such rules and regulations governing the performance of its duties and the administration of the provisions of this Act as may be necessary or proper, and such rules and regulations where not inconsistent with the provisions of law shall have the force and effect of law. For the purpose of effectuating the objects of this Act, the said board shall have the power to appropriate, in its name and in the manner provided by law for the appropriation of water by others, any of the unappropriated waters of this State. Said board is further empowered in the interest of public welfare to withdraw from appropriation by others, including appropriation for power purposes, and to reserve for appropriation by itself on behalf of the State of Nevada, the unappropriated waters of any surface or underground stream, lake, spring, or other source of water supply. Such withdrawal and reservation shall be made in the following manner: When the board has considered and has in contemplation any reclamation project which in the judgment of the board will require the use of the unappropriated waters of any such source of water supply, the board may cause to be entered on its minutes an order reciting such facts and directing its proper officers to take the necessary action to withdraw from appropriation by others and reserve for appropriation by the board, the unappropriated waters of said source of water supply. Thereupon the proper officers of said board shall file in the office of the State Engineer the proclamation of the said board signed by its proper officers and bearing an impression of its seal, reciting the said order of the board and proclaiming such withdrawal and reservation of the unappropriated waters of said source of water supply. After the filing of such proclamation in the office of the State Engineer, and while such proclamation remains effectual, all applications for

the use of water from such source of supply not previously approved by the State Engineer, except such as may be made by the board for the purposes of such reclamation project, or made by others with the written consent of the board, shall be deemed detrimental to the public welfare and the public interests and shall be rejected by the State Engineer. No such proclamation shall remain effectual for a longer period than three years from the date of its filing, but such withdrawal and reservation may be twice renewed for additional periods of three years each by new proclamations authorized and executed in the same manner as the original proclamation and filed with the State Engineer before the expiration of such withdrawal and reservation; *provided*, that the board, as soon after filing such proclamation as its other plans and its facilities will admit, shall investigate the project for which said proclamation was filed, and if it determines to abandon the same, shall immediately cause to be executed by its proper officers and over its seal and to be filed with the State Engineer, a withdrawal of such proclamation and thereupon the withdrawal and reservation of the right to appropriate such waters shall cease to be effectual.

The use of water for reclamation and settlement projects under this Act, whether for power, irrigation or other purposes, is hereby declared to be a more necessary public use than the use of water for any other project or purpose, and whenever any water, the right to the use of which is now vested in any person, or for which any person now holds a permit from the State Engineer, may be needed for the purposes of this Act, the said reclamation and settlement board may acquire the right to the use of such water by purchase or the exercise of the right of eminent domain in accordance with the provisions of law concerning the exercise of such right. It it shall appear in any action brought by said board to condemn the rights of any person under an unperfected permit issued by the State Engineer that the water covered by said permit has not been actually applied to a beneficial use, then on the question of the value of the rights under said permit the burden shall be on the permittee to prove, if he so claims, that he intends to apply said water to a beneficial use, that said permit is not held merely for the purpose of sale or speculation, that the permittee has the financial ability and means to construct the proposed works or has made an actual contract to sell his rights under such permit to a vendee who has the financial ability and the bona-fide intent to complete said contract and construct said works. In all cases the possibility of making or procuring an advantageous sale of the rights of such permittee is hereby declared to be too remote to be considered as an element in determining the value of such rights.

The said board after acquiring the right to use water in connection with any project, may in the course of the development or administration thereof or after its completion, assign and transfer such right or any part thereof to any applicant complying with the rules of the board or otherwise satisfying it that the water will be put to a beneficial use.

(3) Amend section 14, page 10, line 18, by striking out the word "of" where it occurs the first time, and inserting in lieu thereof the word "and."

(4) Amend the title so as to read as follows: An Act providing for the reclamation, improvement and equipment of lands within the State for rural homes for soldiers, sailors, marines and other loyal citizens; providing for federal and other cooperation in the same, and for the reimbursement of moneys so expended; creating a reclamation and settlement board; defining its powers and duties; empowering the board to appropriate unappropriated public waters; providing a procedure for the temporary withdrawal of unappropriated waters from appropriation by other persons; declaring the use of water for reclamation and settlement projects a more necessary public use than for any other project or purpose and authorizing the exercise of the right of eminent domain for the acquisition thereof; providing a procedure for determining the value of unperfected permits to appropriate waters; making an appropriation therefor; creating a reclamation and settlement fund; providing for a state loan; levying a state tax, authorizing the establishment of reclamation and settlement districts for assessment purposes; creating a reclamation loan interest and redemption fund, and for other purposes.

#### REPORTS OF SELECT COMMITTEES

*Mr. President:*

On February 7, 1919, the undersigned were appointed a committee to ascer-

tain the feasibility of erecting a cement plant by the State of Nevada, and we now beg leave to report as follows:

At the outset of this investigation it was ascertained that several features of this matter should be separately investigated, as each has a considerable bearing on the whole matter.

In the matter of materials your committee has secured samples from different localities. These were submitted to the University of Nevada for analysis, and their report is to the effect that there is material in the vicinity of Elko and in the vicinity of Carson City suitable for cement manufacturing purposes. Undoubtedly further investigation would reveal ample deposits of materials in other localities in this State. At the present time there are about ten thousand (10,000) tons of gypsum being shipped annually from Mound House to California points as an ingredient in the manufacture of their cement. It is a factor in favor of cement manufacture in this State that all the ingredients seem to be locally available.

Fuel is a very important item in the manufacture of cement—being about thirty (30) per cent of the cost of manufacture. There would appear to be but two sources of fuel worthy of investigation for this purpose in this State—that of the coal deposits near Coaldale in Esmeralda County, and the oil shale in Elko County. Your committee is not in a position at this time to say whether or not the use of either of these fuels would be feasible. However, they deem the matter worthy of considerable investigation. Fuel oil is used in California for the manufacture of this product and the freight to Reno is forty-two (42) cents per barrel more than the California cement plants pay from points where the supply is now obtained. A barrel of fuel oil is sufficient fuel to manufacture three and one-half ( $3\frac{1}{2}$ ) barrels of cement, and the above freight charge could, therefore, be considered as being twelve (12) cents per barrel of manufactured cement.

Against this charge of fuel, however, there is a charge in freight of eighty-two (82) cents per barrel of cement from California points to Reno—a net saving in this one respect of seventy (70) cents per barrel of cement. And this amount might be greatly enlarged should the use of local fuels be found to be feasible.

There are so many features which must be considered in arriving at even an approximate estimate of the first cost of a plant that your committee must state that this matter requires more investigation. The determination of a definite source of supply of raw materials, the design, to a certain extent, of the plant, and the securing of quotations are all factors which could not be investigated fully on account of the short time allotted to your committee in which to make this report. It has been found that there is now located in this state considerable machinery suitable for the manufacture of cement and it is believed that this can be secured at a very reasonable cost. At the present time it is not being used and is controlled by an agency of the Federal Government who, on account of their very favorable attitude toward highway construction in this State, would undoubtedly be willing to aid us in securing this material and equipment at a very low cost.

Probably the greatest question in connection with the erection of a cement plant in this State is the one of the disposal of the product.

We are informed that the following quantities of cement have been shipped into this State during the past three years:

1916.....	56,000 barrels
1917.....	49,000 barrels
1918.....	36,000 barrels

From the above it is safe to assume that not less than 125,000 barrels will be shipped into this State during the next two years for use in local industries exclusive of highway construction.

The State Highway Department advises us that should the Washoe County \$500,000 bond bill become a law, the needs of the State for the next two years will be approximately 225,000 barrels.

From this it would seem that there is a very strong probability of 350,000 barrels of cement being used in this State during the next two years, a sufficient consumption to keep a 500-barrel-per-day plant in continuous operation for that period.

We are also informed that at the present time the State Highway Department is withholding its decision in the matter of the types of some of the state highways on account of the exorbitant and almost prohibitive price of cement—prices which this department deems unwarranted.

The market for cement in this State will undoubtedly increase with the erection of a state-owned plant. But probably a feature of more importance is that it will lend encouragement to the construction of concrete highways which cannot now—except in possibly one or two cases—be constructed on account of the cost of this very important material.

The present price to the State of cement at the mill is \$2.20 per barrel, to which must be added 82 cents for freight to Reno.

By the erection of a plant here by the State, the freight will be saved, the profit of the cement manufacturer, which must be large, will become our own and the money for labor spent in production will be distributed through our own merchants. As against this, we have the small handicap of fuel and the initial cost of the plant.

It is hoped that the above brief report will convince the Senate, as we are now convinced, that this matter is worthy of considerable additional investigation and that it has a very strong probability of being a meritorious proposition. The State Highway Department, with whom your committee has cooperated, strongly approves a further investigation of this matter.

In view of the results of this brief investigation, it is hoped and strongly recommended that provision be made at this session of the Legislature to carry out detailed investigations and that a method will be provided with a substantial appropriation whereby, in the event that the proposition is proven feasible beyond doubt, this very important undertaking may be realized at the earliest possible moment.

A new section is hereby added to the above-entitled Act to be known as section 25½. SECTION 25½. In cases of temporary total disability if there be persons residing in the United States totally dependent for support upon the workman, compensation as provided herein with an additional allowance of ten (\$10) dollars per month for such dependents during the period of such disability. Add a new section, to be known as section 11 to read as follows: SEC. 11. Section 25 of the above-entitled Act, as amended by an Act approved March 22, 1915, and as amended by an Act approved March 27, 1917, is hereby amended to read as follows:

SECTION 25. Every employee in the employ of an employer within the provisions of this Act, who shall be injured by accident arising out of and in the course of employment, or his dependents, as hereinafter defined, shall be entitled to receive the following compensation:

#### (A) DEATH BENEFITS

If the injury causes death, the compensation shall be known as a death benefit and shall be payable in the amount and to and for the benefit of the persons following:

1. Burial expenses, not to exceed one hundred and twenty-five (\$125) dollars, in addition to the compensation payable under this Act.

2. To the widow, if there is no child, thirty per centum of the average wage of the deceased. This compensation shall be paid until her death or remarriage, with two years' compensation in one sum upon remarriage.

3. To the widower, if there is no child, thirty per centum of the average wage of the deceased, if wholly dependent for support upon the deceased employee at the time of her death. This compensation shall be paid until his death or remarriage.

4. To the widow or widower, if there is a child or children, the compensation payable under clause one (1) or clause two (2), and in addition the additional amount of ten per centum of such wage for each such child until the age of eighteen years. In case of the subsequent death of such surviving wife (or dependent husband), any surviving child of the deceased employee shall have his compensation increased to fifteen (15) per centum of such wages, and the same shall be payable until he shall reach the age of eighteen years; *provided*, that the total amount payable shall in no case exceed sixty-six and two-thirds per cent of such wage. If the children have a guardian other than the surviving widow or widower, the compensation on account of such children may be paid

to such guardian. The compensation payable on account of any child shall cease when he dies, marries, or reaches the age of eighteen years, or if over eighteen years, and incapable of self-support, becomes capable of self-support.

5. If there be a surviving child or children of the deceased under the age of eighteen years, but no surviving wife (or dependent husband) then for the support of each child until the age of eighteen years, fifteen per centum of the wages of the deceased; *provided*, that the aggregate shall in no case exceed sixty-six and two-thirds per centum of such wages.

6. If there be no surviving wife (or dependent husband) or child under the age of eighteen years, there shall be paid to a parent, if wholly dependent for support upon the deceased employee at the time of his death, twenty-five per centum of the average monthly wage of the deceased during dependency, with an added allowance of ten per centum if two dependent parents survive; to the brothers or sisters, under the age of eighteen years, if one is wholly dependent upon the deceased employee for support at the time of injury causing death, twenty per centum of the average monthly wage for the support of such brother or sister, until of the age of eighteen years. If more than one brother or sister is wholly dependent, thirty per centum of the average monthly wage at the time of injury causing death, divided among such dependents share and share alike. If there is no one of them wholly dependent, but one or more partly dependent, ten per centum divided among such dependents share and share alike.

7. In all other cases, questions of total or partial dependency shall be determined in accordance with the facts as the facts may be at the time of the injury. If the deceased employee leaves dependents only partially dependent upon his earnings for support at the time of the injury causing his death, the monthly compensation to be paid shall be equal to the same proportion of the monthly payment for the benefit of persons totally dependent as the amount contributed by the employee of such partial dependents bears to the average wage of deceased at the time of the injury resulting in his death. The duration of such compensation to partial dependents shall be fixed by the Commission in accordance with the facts shown, but in no case exceed compensation for one hundred months.

8. Compensation to the widow or widower shall be for the use and benefit of such widow or widower and of the dependent children, and the Commission may, from time to time, apportion such compensation between them in such way as it deems best for the interests of all beneficiaries.

If a dependent to whom a death benefit is to be paid is an alien not residing in the United States, the compensation shall be only sixty (60) per cent of the amount or amounts above specified.

9. Any excess of wages over one hundred and twenty (\$120) dollars a month shall not be taken into account in computing compensation for death benefits.

10. In such cases where compensation is awarded to the widow, dependent children, or persons wholly dependent, no lump-sum settlements shall be allowed.

11. In case of the death of any dependent specified in the foregoing enumeration before the expiration of the time named in the award, funeral expenses not to exceed one hundred and twenty-five (\$125) dollars shall be paid.

#### (B) TOTAL DISABILITY

(1) Temporary total disability: For temporary total disability, if there be no one residing in the United States totally dependent upon the workman at the time of injury, compensation of sixty (60%) per cent of the average monthly wage, but not more than seventy-two (\$72) dollars nor less than thirty (\$30) dollars per month, but not exceeding one hundred months, during the period of such disability, total amount not to exceed seven thousand two hundred (\$7,200) dollars; if there be persons residing in the United States totally dependent for support upon the workman, compensation as provided herein with an additional allowance of ten (\$10) dollars per month for such dependents during the period of such disability.

(2) Permanent total disability: In cases of total disability adjudged to be permanent, compensation of sixty (60%) per cent of the average monthly wage, but not less than thirty (\$30) dollars per month nor more than sixty (\$60) dollars per month during the life of the injured person.

In cases of allowing specified injuries, in the absence of proof to the contrary, the disability caused thereby shall be deemed total and permanent:

1. The total and permanent loss of sight of both eyes.
2. The loss by separation of both legs at or above the knee.
3. The loss by separation of both arms at or above the elbow.
4. An injury to the spine resulting in permanent and complete paralysis of both legs or both arms, or one leg and one arm.
5. An injury to the skull resulting in incurable imbecility or insanity.
6. The loss by separation of one arm at or above the elbow, and one leg by separation at or above the knee may be deemed a permanent total disability.

The above enumeration is not taken as exclusive; and in all other cases, permanent total disability shall be determined in accordance with the facts.

#### (C) PARTIAL DISABILITY

1. Temporary partial disability: For temporary partial disability, sixty (60%) per cent of the difference between the wages earned before the injury and the wages which the injured person is able to earn thereafter, but not more than forty (\$40) dollars per month for a period not to exceed sixty (60) months during the period of disability. For the purpose of this provision any excess of wages over one hundred and twenty (\$120) dollars per month shall not be taken into account in computing compensation for temporary partial disability.

2. In cases of any of the following specified injuries, the disability caused thereby shall be deemed a permanent partial disability, and compensation of fifty (50%) per cent of the average monthly wage, subject to a minimum of thirty (\$30) dollars per month and a maximum of sixty (\$60) dollars per month shall be paid in addition to the compensation paid for temporary total disability for the period named in the following schedule:

- (a) For the loss of a thumb, fifteen (15) months.
- (b) For the loss of a first finger, commonly called the index finger, nine (9) months.
- (c) For the loss of a second finger, seven (7) months.
- (d) For the loss of the third finger, five (5) months.
- (e) For the loss of the fourth finger, commonly called the little finger, four (4) months.
- (f) The loss of a distal or second phalange of the thumb, or the distal or third phalange of the first, second, third, or fourth finger, shall be considered a permanent partial disability, and equal to the loss of one-half of such thumb or finger, and compensation shall be one-half of the amount specified for the loss of the entire thumb or finger.
- (g) The loss of more than one phalange of the thumb or finger shall be considered as the loss of the entire finger or thumb; *provided, however*, that in no case shall the amount received for more than one finger exceed the amount provided in this schedule for the loss of a hand.
- (h) For the loss of a great toe, seven (7) months.
- (i) For the loss of one of the other toes other than the great toe, two and one-half (2½) months.
- (j) However, the loss of the first phalange of any toe shall be considered to be equal to the loss of one-half of such toe, and compensation shall be one-half of the amount above specified.
- (k) The loss of more than one phalange shall be considered as the loss of the entire toe.
- (l) For the loss of a major hand, fifty (50) months; the loss of a minor hand, forty (40) months.
- (m) For the loss of a major arm, sixty (60) months; the loss of a minor arm, fifty (50) months.
- (n) For the loss of a foot, forty (40) months.
- (o) For the loss of a leg, fifty (50) months.
- (p) For the loss of an eye by enucleation, thirty (30) months.
- (q) The permanent and complete loss of sight in one eye without enucleation, twenty-five (25) months.
- (r) For permanent and complete loss of hearing in one ear, twenty (20) months.
- (s) For permanent and complete loss of hearing in both ears, sixty (60) months.

(t) The permanent and complete loss of the use of a finger, toe, arm, hand, foot, or leg may be deemed the same as the loss of any such member by separation.

(u) For the partial loss of use of a finger, toe, arm, hand, foot, leg or partial loss of sight or hearing, fifty (50%) per cent of the average monthly wage during that proportion of the number of months in the foregoing schedule provided for the complete loss of the use of such member, or complete loss of sight or hearing, which the partial loss of use thereof bears to the total loss of use of such member or total loss of sight or hearing.

(v) Facial disfigurement: For permanent disfigurement about the head or face, which shall include injury to or loss of teeth, the Commission may allow such sum for compensation thereof as it may deem just, in accordance with the proof submitted, for a period not to exceed twelve (12) months.

(w) In all cases of permanent partial disability, not otherwise specified in the foregoing schedule, the percentage of disability to the total disability shall be determined. For the purpose of computing compensation for a disability that is partial in character but permanent in quality, the sum of sixty (\$60) dollars per month for the period of one (1) month shall represent a one (1%) per cent disability.

In determining the percentage of disability, consideration shall be given, among other things, to any previous disability, the occupation of the injured employee, the nature of the physical injury, and the age of the employee at the time of the injury.

(x) Where there is a previous disability, as the loss of one eye, one hand, one foot, or any other previous permanent disability, the percentage of disability for a subsequent injury shall be determined by computing the percentage of the entire disability and deducting therefrom the percentage of the previous disability as it existed at the time of the subsequent injury.

(y) The Commission may adopt a schedule for rating permanent disabilities and reasonable and proper rules to carry out the provisions of this subsection.

No compensation shall be payable for the death or disability of an employee, if his death be caused by, or in so far as his disability may be aggravated, caused or continued by, an unreasonable refusal or neglect to submit to or follow any reasonable surgical treatment or medical aid.

JNO. H. DUNN,

*Assistant Chief Clerk of the Assembly.*

Section 25. Every employee in the employ of an employer within the provisions of this Act, who shall be injured by accident arising out of and in the course of employment, or his dependents, as hereinafter defined, shall be entitled to receive the following compensation :

(A) DEATH BENEFITS

If the injury causes death, the compensation shall be known as a death benefit and shall be payable in the amount and to and for the benefit of the persons following :

1. Burial expenses, not to exceed one hundred and twenty-five (\$125) dollars, in addition to the compensation payable under this Act.

2. To the widow, if there is no child, thirty per centum of the average wage of the deceased. This compensation shall be paid until her death or remarriage, with two years compensation in one sum upon remarriage.

3. To the widower, if there is no child, thirty per centum of the average wage of the deceased, if wholly dependent for support upon the deceased employee at the time of her death. This compensation shall be paid until his death or remarriage.

4. To the widower, if there is a child or children, the compensation payable under clause one (1) or clause two (2), and in addition the additional amount of ten per centum of such wage for each such child until the age of eighteen years. In case of the subsequent death of such surviving wife (or dependent husband), any surviving child of the deceased employee shall have his compensation increased to fifteen (15) per centum of such wages, and the same shall be payable until he shall reach the age of eighteen years; *provided*, that the total amount payable shall in no case exceed sixty-six and two-thirds per cent of such wage. If the children have a guardian other than the surviving widow or widower, the compensation on account of such children may be paid to such guardian. The compensation payable on account of any child shall cease when he dies, marries, or reaches the age of eighteen years, or if over eighteen years, and incapable of self-support, becomes capable of self-support.

5. If there be no surviving child or children of the deceased under the age of eighteen years, but no surviving wife (or dependent husband), then for the support of each child until the age of eighteen years, fifteen per centum of the wages of the deceased; *provided*, that the aggregate shall in no case exceed sixty-six and two-thirds per centum of such wage.

6. If there be no surviving wife (or dependent husband) or child under the age of eighteen years, there shall be paid to a parent, if wholly dependent for support upon the deceased employee at the time of his death, twenty-five per centum of the average monthly wage of the deceased during dependency, with an added allowance of ten per centum if two dependent parents survive; to the brothers or sisters, under the age of eighteen years, if one is wholly dependent upon the deceased employee for support at the time of injury causing death, twenty per centum of the average monthly wage for the support of such brother or sister, until of the age of eighteen years. If more than one brother or sister is wholly dependent, thirty per centum of the average monthly wage at the time of injury causing death, divided

among such dependents share and share alike. If there be no one of them wholly dependent, but one or more partly dependent, ten per centum divided among such dependents share and share alike.

7. In all other cases, questions of total or partial dependency shall be determined in accordance with the facts as the facts may be at the time of the injury. If the deceased employee leaves dependents only partially dependent upon his earnings for support at the time of the injury causing his death, the monthly compensation to be paid shall be equal to the same proportion of the monthly payments for the benefit of persons totally dependent as the amount contributed by the employee to such partial dependents bears to the average wage of deceased at the time of the injury resulting in his death. The duration of such compensation to partial dependents shall be fixed by the Commission in accordance with facts shown, but in no case exceed compensation for one hundred months.

8. Compensation to the widow or widower shall be for the use and benefit of such widow or widower and of the dependent children, and the Commission may, from time to time, apportion such compensation between them in such way as it deems best for the interests of all beneficiaries. If a dependent to whom a death benefit is to be paid is an alien not residing in the United States, the compensation shall be only sixty (60) per cent of the amount or amounts above specified.

9. Any excess of wages over one hundred and twenty (\$120) dollars a month shall not be taken into account in computing compensation for death benefits.

10. In such cases where compensation is awarded to the widow, or dependent children, or persons wholly dependent, no lump-sum settlements shall be allowed.

11. In case of the death of any dependent specified in the foregoing enumeration before the expiration of the time named in the award, funeral expenses, not to exceed one hundred and twenty-five (\$125) dollars, shall be paid.

#### (B) TOTAL DISABILITY

(1) Temporary total disability: For temporary total disability, if there be no one residing in the United States totally dependent upon the workman at the time of the injury, compensation of sixty (60%) per cent of the average monthly wage, but not more than seventy-two (\$72) dollars nor less than thirty (\$30) dollars per month, but not exceeding one hundred months, during the period of such disability, total amount not to exceed seven thousand two hundred (\$7,200) dollars; if there be persons residing in the United States totally dependent for support upon the workman, compensation as provided herein with an additional allowance of ten (\$10) dollars per month for such dependents during the period of such disability.

(2) Permanent total disability: In cases of total disability adjudged to be permanent, compensation of sixty (60%) per cent of the average monthly wage, but not less than thirty (\$30) dollars per month nor more than sixty (\$60) dollars per month during the life of the injured person.

In cases of the following specified injuries, in the absence of proof to

the contrary, the disability caused thereby shall be deemed total and permanent:

1. The total and permanent loss of sight of both eyes.
2. The loss by separation of both legs at or above the knee.
3. The loss by separation of both arms at or above the elbow.
4. An injury to the spine resulting in permanent and complete paralysis of both legs or both arms, or one leg and one arm.
5. An injury to the skull resulting in incurable imbecility or insanity.
6. The loss by separation of one arm at or above the elbow, and one leg by separation at or above the knee may be deemed a permanent total disability.

The above enumeration is not taken as exclusive; and in all other cases, permanent total disability shall be determined in accordance with the facts.

#### (C) PARTIAL DISABILITY

1. Temporary partial disability: For temporary partial disability, sixty (60%) per cent of the difference between the wages earned before the injury and the wages which the injured person is able to earn thereafter, but not more than forty (\$40) dollars per month for a period not to exceed sixty (60) months during the period of said disability. For the purpose of this provision, any excess of wages over one hundred and twenty (\$120) dollars per month shall not be taken into account in computing compensation for temporary partial disability.

2. In case of any of the following specified injuries, the disability caused thereby shall be deemed a permanent partial disability, and compensation of fifty (50%) per cent of the average monthly wage, subject to a minimum of thirty (\$30) dollars per month and a maximum of sixty (\$60) dollars per month, shall be paid in addition to the compensation paid for temporary total disability for the period named in the following schedule:

- a. For the loss of a thumb, fifteen (15) months.
- b. For the loss of a first finger, commonly called the index finger, nine (9) months.
- c. For the loss of a second finger, seven (7) months.
- d. For the loss of the third finger, five (5) months.
- e. For the loss of the fourth finger, commonly called the little finger, (4) months.
- f. The loss of a distal or second phalange of the thumb, or the distal or third phalange of the first, second, third, or fourth finger, shall be considered a permanent partial disability, and equal to the loss of one-half of such thumb or finger, and compensation shall be one-half of the amount specified for the loss of the entire thumb or finger.
- g. The loss of more than one phalange of the thumb or finger shall be considered as the loss of the entire finger or thumb; *provided, however*, that in no case shall the amount received from more than one finger exceed the amount provided in this schedule for the loss of a hand.
- h. For the loss of a great toe, seven (7) months.
- i. For the loss of one of the other toes other than the great toe, two and one half ( $2\frac{1}{2}$ ) months.

j. However, the loss of the first phalange of any toe shall be considered to be equal to the loss of one-half of such toe, and compensation shall be one-half of the amount above specified.

k. The loss of more than one phalange shall be considered as the loss of the entire toe.

l. For the loss of a major hand, fifty (50) months; the loss of a minor hand, forty (40) months.

m. For the loss of a major arm, sixty (60) months; the loss of a minor arm, fifty (50) months.

n. For the loss of a foot, forty (40) months.

o. For the loss of a leg, fifty (50) months.

p. For the loss of an eye by enucleation, thirty (30) months.

q. The permanent and complete loss of sight in one eye without enucleation, twenty-five (25) months.

r. For permanent and complete loss of hearing in one ear, twenty (20) months.

s. For permanent and complete loss of hearing in both ears, sixty (60) months.

t. The permanent and complete loss of the use of a finger, toe, arm, hand, foot, or leg may be deemed the same as the loss of any such member by separation.

u. For the partial loss of use of a finger, toe, arm, hand, foot, leg, or partial loss of sight or hearing fifty (50%) per cent of the average monthly wage during that proportion of the number of months in the foregoing schedule provided for the complete loss of use of such member, or complete loss of sight or hearing which the partial loss of use thereof bears to the total loss of use of such member or total loss of sight or hearing.

v. Facial disfigurement: For permanent disfigurement about the head or face, which shall include injury to or loss of teeth, the Commission may allow such sum for compensation thereof as it may deem just, in accordance with the proof submitted, for a period not to exceed twelve (12) months.

w. In all cases of permanent partial disability, not otherwise specified in the foregoing schedule, the percentage of disability to the total disability shall be determined. For the purpose of computing compensation for a disability that is partial in character but permanent in quality, the sum of sixty (\$60) dollars per month for the period of one (1) month shall represent a one (1%) per cent disability.

In determining the percentage of disability, consideration shall be given, among other things, to any previous disability, the occupation of the injured employee, the nature of the physical injury, and the age of the employee at the time of the injury.

x. Where there is a previous disability, as the loss of one eye, one hand, one foot, or any other previous permanent disability, the percentage of disability for a subsequent injury shall be determined by computing the percentage of the entire disability and deducting therefrom the percentage of the previous disability as it existed at the time of the subsequent injury.

y. The Commission may adopt a schedule for rating permanent dis-

abilities and reasonable and proper rules to carry out the provisions of this subsection.

No compensation shall be payable for the death or disability of an employee, if his death be caused by, or in so far as his disability may be aggravated, caused or continued by, an unreasonable refusal or neglect to submit to or follow any competent and reasonable surgical treatment or medical aid.

#### MESSAGES FROM THE ASSEMBLY

*To the Honorable the Senate:*

I have the honor herewith to return for the consideration of your honorable body Assembly Bill No. 281, with a message from the Speaker of the Assembly thereon:

The Chair is unable to believe that the Assembly can consider any bill that includes a section containing legislation vetoed by the Governor during the present session and which veto this Assembly has sustained. This would be a complete destruction of the veto power of the Governor; and, if carried to its logical conclusion, under our Constitution, which does not permit the Governor to veto one section of an Act without vetoing all of it, would be a technical violation of the Constitution itself. This is not the spirit or intent of parliamentary rules. These rules are established to assist and not hamper the course of law and reason; and for the Assembly to take such a step would be to declare that it did not recognize the existence of coordinate authority of any other branch of the State Government. The Chair, therefore, rules that the Assembly cannot entertain Assembly Bill No. 281 while section 40 is contained therein.

D. J. FITZGERALD, *Speaker.*
